Direct SAR 40M to Bridge the Regional Digital Adoption Gap

The Big Idea: Three regions pull national adoption below the 65% target; targeted investment of SAR 40M is the decisive path to close the gap.

THE DECISION

SAR 40M

Reallocate fund exclusively to targeted regional enablement.

PRIORITY DEFICIT CLUSTER

3 Regions

Najran (60.9%), Northern Borders (62.7%), Al-Baha (62.8%).

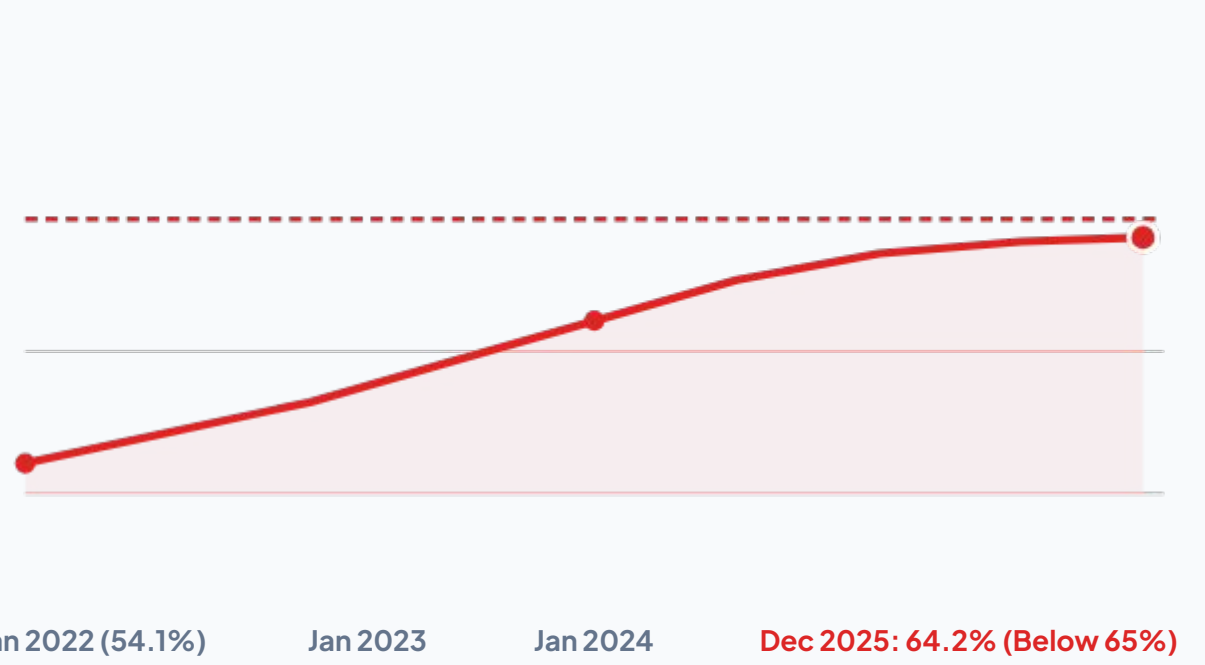

NATIONAL MANDATE

≥ 65.0%

Achieve universal 65% digital adoption across all 13 regions.

National Adoption Grew for 48 Months but Plateaus Near 65%

Tableau Chart: Monthly National Digital Adoption (2022 – 2025)

48-MONTH MOMENTUM

+10.1% Overall Gain

Consistent upward growth across 48 continuous months of data.

THE PLATEAU DEFICIT

-0.8% Under Mandate

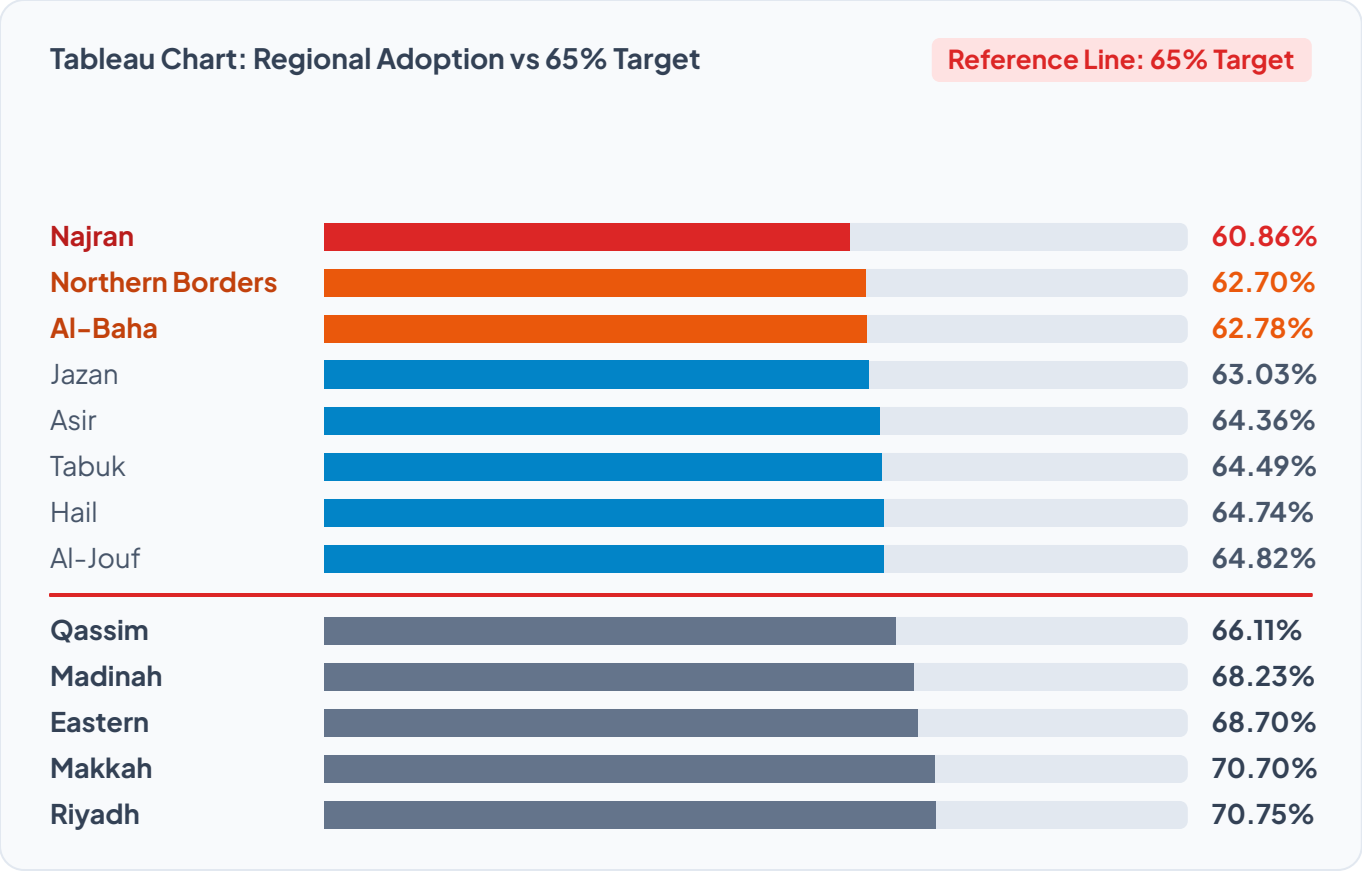

National rate stalls at 64.2% due to lagging peripheral regions.

EXECUTIVE TAKEAWAY

Metros have reached saturation; national growth requires targeted intervention in outlier provinces.

03 · COMPLICATION & REGIONAL DISPARITY

8 Regions Fall Below Target, Led by Critical Deficits in 3 Outliers

THE ACUTE DRAG CLUSTER

-4.14% Max Gap

Najran trails by 4.14%, followed by Northern Borders (-2.30%) and Al-Baha (-2.22%).

ANALYTICAL INSIGHT

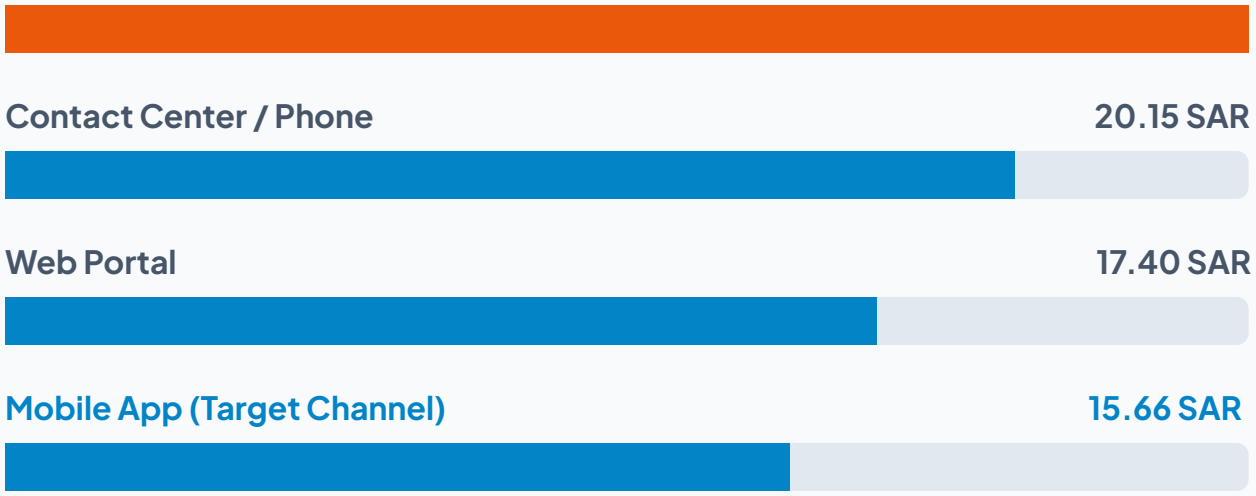

Geographic, Not Platform Failure

5 top regions clear 66%–71%. The bottleneck is localized in-person branch dependency.

Physical Branch Reliance Drives a 58% Cost Premium

Tableau Chart: Average Cost per Transaction by Channel (SAR)

Branch Pre-Attentive Highlight

**Shift of 100,000 branch visits to app delivers SAR 914,000 in immediate operating savings.*

UNIT COST INFLATION

+58.4% Unit Cost

Lagging regions over-index on branch staff and physical counters.

OPERATIONAL DRAG

26.4 Min vs 3.2 Min

Physical queue times suppress citizen satisfaction (CSAT) scores.

THE BUSINESS CASE

Closing regional adoption gaps directly eliminates manual workload and pays for itself in operating savings.

05 · STRATEGIC OPTIONS EVALUATION

Targeted Deployment Delivers 3× the Impact of Uniform Allocation

OPTION A · REJECTED

Uniform Distribution

Allocate SAR 3.08M equally across all 13 administrative regions.

Fatal Flaw:
Dilutes capital. Leaves Najran and Al-Baha stranded beneath the 65% target.

OPTION B · REJECTED

Central Platform UX

Invest SAR 40M centrally on nationwide portal upgrades.

Fatal Flaw:
Benefits existing users only; ignores regional field literacy and access barriers.

OPTION C · RECOMMENDED

Targeted Enablement

Direct SAR 40M into Najran, Northern Borders & Al-Baha field taskforces.

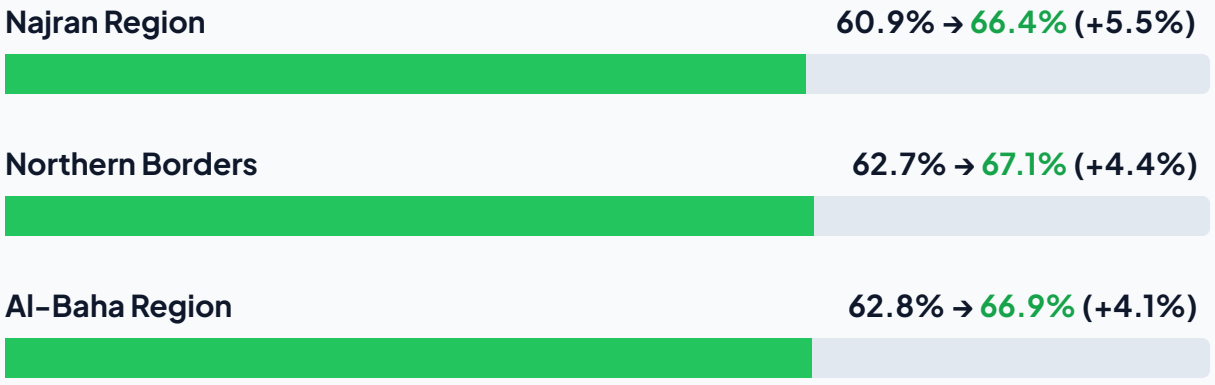

Strategic Advantage:
Eliminates the acute deficit, lifting all 13 regions above 65% before December.

06 · RECOMMENDATION & PROJECTED IMPACT

Targeted Fund Guarantees All Regions Exceed 65% within our target execution window

Projected Regional Uplift vs 65% Target

+4.5% Avg Uplift

Mandate Verification: All 3 lagging regions safely exceed the 65.0% threshold.

ADOPTION VELOCITY

Fastest Conversion Math

Smaller population footprints require fewer absolute user shifts to clear 65%.

COST RATIONALIZATION

Relieves Branch Congestion

Replaces 24.80 SAR branch visits with 15.66 SAR app transactions.

VISION 2030 INCLUSIVITY

Zero Regions Left Behind

Guarantees high-standard digital public service delivery across every province.

07 · THE DECISION & NEXT STEPS

Approve SAR 40M Reallocation with a 90-Day Execution Roadmap

IMMEDIATE APPROVAL

Commit SAR 40M

Executive Steering Committee sign-off to direct funding to priority regions.

Action: Today

DEPLOYMENT PHASE

Deploy Field Teams

Mobilize operational task forces and digital kiosks in Najran, Northern Borders & Al-Baha.

Action: Days 1–30

MILESTONE CHECKPOINT

Committee Review

Evaluate adoption velocity against the 65% target line with live BI data to clear the national mandate.

Action: Day 60

Closing BLUF: We request committee sign-off today to execute the 90-day enablement plan and clear the national 65% mandate. Thank you.
